

Instructions for using the PAILMASTER Recycling Kits

Open Pailmaster and remove paperwork / instructions

Keep this for your records.

Fill the pail with used dry cell, mercury, lithium or button cell batteries, mercury devices, or lighting ballast as described on Pailmaster kit that you ordered.

A. DO NOT put materials other than batteries in the battery pail, or lighting ballast in the ballast pail, or mercury devices in the mercury pail. You CAN NOT combine material in the same Pailmaster kit.

B. DO NOT put mercury, lithium or button cell batteries in the dry cell Pailmaster kit.

C. DO NOT exceed the weight limit of your Pailmaster kit.

D. Please review your instructions for proper taping of battery terminals.

After your Pailmaster kit is full, securely attach lid to the pail.

To print your return label, go to www.lampmaster.com and click on "return label." Enter your serial and pin numbers, then print your return label.

Put your Pailmaster kit with your outgoing FedEx shipments, or call 1-888-777-6040 for the FedEx Ground Package Returns Program.
